### EDUCATION

**Bachelor of Science**  
Computer Engineer  
Rajamangala University of  
Technology Thanyaburi  
2018 - 2022

### SKILLS

Git  
CSS  
HTML  
React.js  
Next.js  
Node.js  
TypeScript  
Javascript  
Python  
Java  
VS Code  
Tailwind CSS  
Authentication  
RESTful API  
Chat GPT  
Responsive design  
Data structures and algorithms  
Object Oriented Programming

### WORK EXPERIENCE WORK EXPERIENCE

#### Front End Developer Intern

**Coding advisor / July 2021 – October 2021 / Bangkok**

- Developed websites and web applications using HTML, CSS, and JavaScript.
- Collaborated with designers to translate mockups into functional code.
- Wrote clean, efficient, and maintainable code.
- Tested and debugged code to ensure smooth operation across browsers and devices.
- Integrated front-end with back-end systems through collaboration with back-end developers.
- Continuously learned and implemented new technologies

### PROJECTS

#### Mobile Application for Brain Training with Machine Learning

- Design & UI/UX: Crafted user-friendly and engaging interface using Figma.
- Development: Wrote clean and efficient code adhering to best practices.
- Testing & Debugging: Rigorously tested and debugged the application to ensure performance and stability.
- Documentation: Built comprehensive technical documentation for developers and users.
- Collaboration: Collaborated effectively with the development team using Git for version control.

**Tech Stack :** Flutter ,Figma ,Dart, Android Studio ,SQL Lite, Firebase, Tensorflow, Google Colab

#### Web Portfolio

- Developed a personal web portfolio showcasing my skills and experience in modern web development.
- Clean and modern UI/UX: Focused on user experience with intuitive navigation and visually appealing design.
- Project Showcase: Highlighted past projects with compelling descriptions, screenshots, and live links.
- Skills & Experience: Detailed my skills and experience using clear categorization and relevant keywords.
- Contact Information: Made it easy for potential employers or clients to get in touch.

**Tech Stack :** Next js, React js, Tailwind CSS, Netlify, Git, Vs code
